The Venus Dance lasting 243 and 251 Years (Revised 6-13-2016)

It is finally time to disclose the best evidence that the Higher Realm is very advanced and knows how to tell time using the planets. The sun, moon, and stars (including the planets) are “for signs, seasons, days and years” (Genesis 1:14-19).

The Higher Realm has known the cycles of Venus since the time of Adam. The best evidence is provided in the life of Moses. He was born 2430 years (243 x 10) after Adam, and he was 80 when the exodus from Egypt occurred 2510 years (251 x 10) after Adam (2430 + 80 = 2510).

TABLE 2 presents absolute proof from NASA that Venus transits across the sun every 243 years, and then it transits again eight years later, in the 251st year. This would also be true in the 2430th and 2510th years.

The video offered on page five illustrates how Venus comes between the earth and sun in the eight years between the 243rd year and in the 251st year. It also illustrates how Venus is between the earth and sun during other years without crossing the sun (TABLE 2). It is too high or too low just as the moon usually orbits to the left or right of the sun without eclipsing it.

The Biblical 251-Year Pattern

TABLE 1 illustrates how there were 251-year Venus cycles from Adam to the fall of Babel (251 x 7) and 251 years from Babel to the birth of Abraham, and 251 years from Abraham to the birth of Joseph, and 251 years from the birth of Joseph to the exodus.

Why did God divide time into 251-years? To answer this, Moses would not have approved using numbers based on numerology, astrology or the Qabalah illustrated ([HERE](#)).

Can we find a 251-year cycle in astronomy? From just a brief exposure to biblical chronology, it becomes evident that experts deal mainly with king lists, new moons, full moons and eclipses instead of exploring other patterns, repetition and design. It's that simple.

There is a lack of evidence that anything else besides Venus has a 251-year cycle.

TABLE 1. The 251-year Pattern

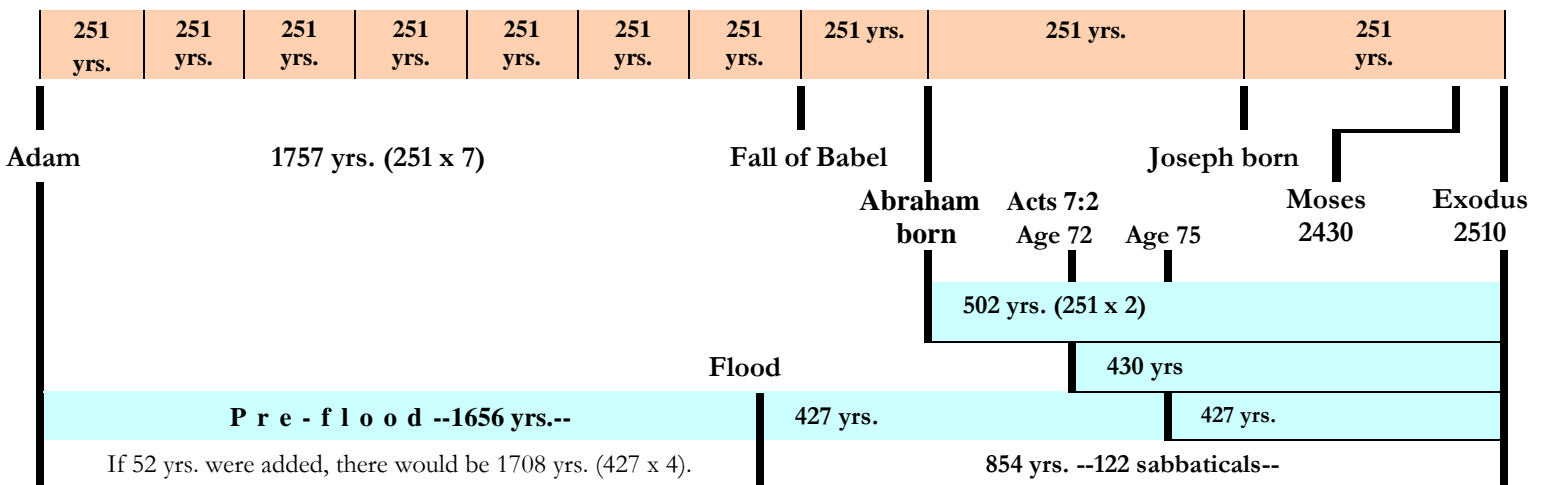

TABLE 1 shows that, 427 years (7 x 61) after Noah's flood, Abraham was age 75 (when his father died, when he first entered Canaan). It shows that his 75th year was also 427 years (7 x 61) before the exodus. This means that Abraham's 75th year and the exodus were both in sabbatical years if they were counted from the flood. This is likely the original version (427 + 427 = 854). The fall of Babel, birth of Abraham, birth of Joseph and the exodus were all separated by 251 years.

June 06	1761	+8 = 1769	1761	
	<u>+243</u>	(243 x 23)	<u>+251</u>	(251 x 23)
June 08	2004	+8 = 2012	2012	

The left column has the dates when Venus transits across the face of the sun in a 243-year cycle. These occur in pairs, including the one on 6-6-1761 AD followed by one eight years later, on 6-3-1769 AD.

The transit in 1761 AD was 251 years before the recent one on 6-6-2012 AD. It was 243 years before the transit on 6-8-2004 AD.

The one in 1761 AD was 251 x 22 before the recent one in 3761 BC.

The other Venus alignments do not transit the sun because they are above or below the sun.

The relationship between 243 and 251 is reflected in the birth of Moses and the exodus. Moses was born after 2430 years (243 x 10), and the exodus was after 2510 years (251 x 10).

How did Moses know there were 1656 years from Adam to the Flood? Ten cycles of 251 (2510 years) minus two Jupiter cycles of 427 years (61 sabbaticals) equals 1656 years.

Therefore, the exodus was likely in about 1251 BC (in Jack Finegan's *Handbook of Biblical Chronology*) (<http://code251.com/kings-p8.html>) or 60 years earlier, in 1312 BC (in rabbinical chronology). The rabbis removed 60 years between Abraham and his father.

Perhaps the exodus was at the beginning of a new cycle of 251 years after Adam and a new Jupiter cycle of 427 years (each having 61 sabbaticals) after the flood.

Moses had written in Genesis 1:14 that the sun, moon, and stars (including planets) are "for signs, seasons, days and years."

TABLES 2 & 3 cover the Venus cycle of 395 orbits in 243 years, and 13 orbits in the next eight years (408 orbits in 251 years). For a video of the last eight years after every 243 to 251 years, go to [HERE](#).

2012= 5773 yrs after Jewish date for Adam in 3761 BC

2022= 5783 + 196 = 5978 years = 427 x 14 (if creation were actually in 3957 BC)

TABLE 2. Note that the 251 years (243-year plus 8) on the left and 251-year pattern on the right both merge in 2012 AD. Prior to this, these two columns are always a multiple of 8 years apart, such as, in years 1769, 1526, 1283, 1040, 797, 554, 311, and 68 AD.

This 8-year pattern may suggest that Venus transited above, below or through the sun when Adam first appeared, and when Babel fell, when the nations were scattered 1757 years (251 x 7) after Adam, and again 251 years later, at the birth of Abraham 2008 years (251 x 8) after Adam, and again 251 years later, at the birth of Joseph 2259 years (241 x 9) after Adam, and again at the exodus, 2510 years (251 x 10) after Adam.

TABLE 2 is based upon a NASA link: <http://eclipse.gsfc.nasa.gov/transit/catalog/VenusCatalog.html>.

The 243-year Venus transits across the sun are easily transformed into a 251-year cycle by subtracting eight years to each cycle: (1769-8 = 1761), (1526-16 = 1510), (1283-24 = 1259), etc.

Math shows that Venus is in the same position every 251 years: One orbit every 224.695 days, 395 orbits in 243 years, 13 orbits in 8 years and 408.00 orbits in 251 years (395 + 13 = 408) (243 + 8 = 251).

(243 x 365.24219878 = 88,753.85430354 days) and (8 x 365.24219878 = 2921.93759024 days) and (251 x 365.24219878 = 91,675.79189378 days)

**TABLE 3. Jupiter's Orbits Around the Sun
36 times in 427 years**

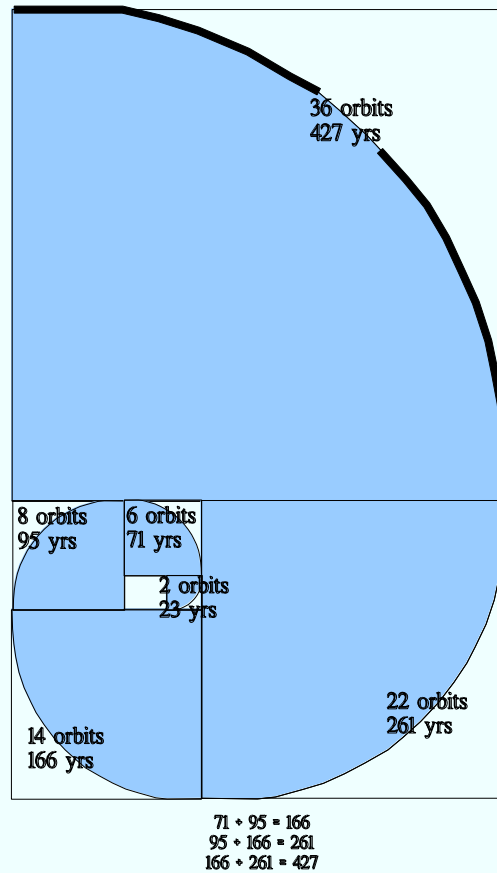

TABLE 3 shows the Jupiter circles the sun 36 times in **427 years**.

These cycles have no relation to numerology, magic numbers, Bible code or the Cabala (<http://code251.com/code243.pdf>).

Obviously, the 251 and 427-year patterns have been hidden from the scholars or hidden by the scholars. Every time a researcher comes to the beginning or ending of an era, there is confusion and outright conflict among commentators over dating the events. For example, the exodus was about 251 years before the temple, or it was 479 years before the temple, or it was 590 years. For a chart of these three views from the exodus to the temple, see TABLE 5 or go to: <http://code251.com/exodus.pdf>

As in the above illustration, Jupiter's orbits around the sun has the following sequence: 2+6=8, 6+8=14, etc...

- Orbits**
- 2** (23.724 yrs.)
 - 6** (71.172 yrs.)
 - 8** (94.896 yrs.)
 - 14** (166.068 yrs.)
 - 22** (260.964 yrs.)
 - 36** (427.104 yrs.)

Jupiter circles the sun 36 times in 427 years (<http://code251.com/code243.pdf>). The cycle is totally unrelated to the Cabala or Numerology.

The Venus Pattern and Eight-year Calendar

TABLE 4 below illustrates an eight-year cycle with 99 lunar months (96 + 3) with 2922 days. Each year would average 365.25 days, which is one day too long every 128 years and needs to have the last intercalary year reduced from 30 to 29.

This calendar would also illustrate the last eight years of the Venus cycle, between the 243rd and 251st years.

TABLE 4. Eight Year Calendar of 2922 days								
Month	Year	2	3	4	5	6	7	8
1	30	30	30	30	30	30	30	30
2	29	29	29	29	29	29	29	29
3	30	30	30	30	30	30	30	30
4	29	29	29	29	29	29	29	29
5	30	30	30	30	30	30	30	30
6	29	29	29	29	29	29	29	29
7	30	30	30	30	30	30	30	30
8	29	29	29	29	29	29	29	29
9	30	30	30	30	30	30	30	30
10	29	29	29	29	29	29	29	29
11	30	30	30	30	30	30	30	30
12	29	29	29	29	29	29	29	29
Intercalary		30			30			30/29

Each month would average 29.5 days. Greek festivals, Pythian Games and the Olympic Cycle, were based upon 4-year and 8-year cycles.

In 128 years (8 x 16), the calendar would have 46,752 days, one day too many. In real time, there are only 46,751

days in 128 years. This difference makes each year 365.24219 days instead of 365.25 days (365.25000 - 365.24219 = .00781). The calendar gains 7.81 days in 1,000 years, or one day in 128 years (1,000 / 7.81 = 128). Therefore, ten days were removed from the calendar when Pope Gregory mandated that Thursday, October 4, 1582 would be followed by Friday, October 15, 1582. Thus, the Gregorian calendar replaced the 365.25-day Julian calendar, which had gained 10 days over the previous 1280 years.

Eight solar years are actually 2921.93752 days, and 99 lunar months are actually 2923.52841 days. The difference is just over 1.5 days per eight years, and the lunar calendar would run ahead of the sun by 1.5 days every eight years.

Obviously, the 251 and 427-year patterns have been hidden from scholars or hidden by scholars. Every time a researcher approaches the beginning or ending of an era, there is confusion and outright conflict among commentators over dating the events.

For example, the exodus was about 251 years before the temple, or it was 479 years before the temple or it was 590 years. For a chart of these three views from the exodus to the temple, go to <http://code251.com/exodus.pdf> or TABLE 5 below.

Exodus & Wilderness = >>>	40	40	40
Rulers during Joshua & Elders >>>	43	43	43
Oppressions = 111 yrs., Judges = 339 yrs., and both down to Eli = 450 yrs.	111	+339	=450
From Samuel to when David captures Jerusalem (or to the temple) = >>>	57	57	57
From Exodus to the capture of Jerusalem (or to the temple) = >>>	251	479	590

Exodus & Wilderness = >>>	40	40	40

Sabbaticals-2

Sabbaticals-3

Sabbaticals-4

TABLES 5a & b: I Kings 6:1 says there were 479 years between the exodus and the temple. This is 52 more years than 427 years.

For the legacy that the temple was 251 years after the exodus, (after Ramesses the Great) see: <http://code251.com/code251.html>.

For the legacy that the temple was 479 years after the exodus, see: <http://code251.com/code479.html>.

For the legacy that the temple was 427 years after the exodus, (after Ramesses the Great) see: <http://code251.com/code427.html>.

For the legacy on the period being 590 years, see: <http://code251.com/code590.html>.

It seems probable that there were 1656 + 52 years from Adam to the flood and 479 – 52 years from the exodus to the temple. These corrections would make 427 x 4 from Adam to the flood and 479 years from the exodus to the temple. Even without these 52-year corrections, the temple is still 427 times 7 after Adam. There were 251 times 10 (2510) years from Adam to the exodus and 427 times two (854) from the flood to the exodus. This means there were 1656 years from Adam to the flood just as we also find in Genesis 5 and 11 (1656 plus 427 plus 427 equals 2510 years).

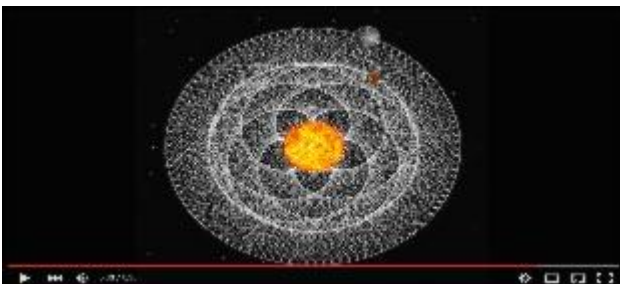

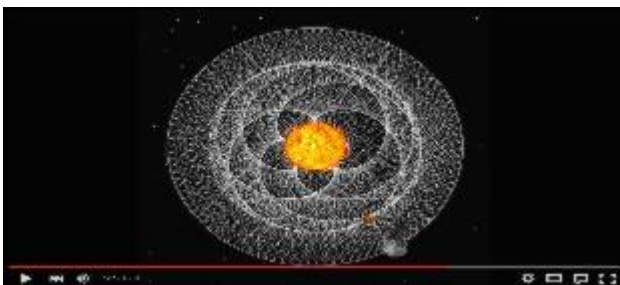

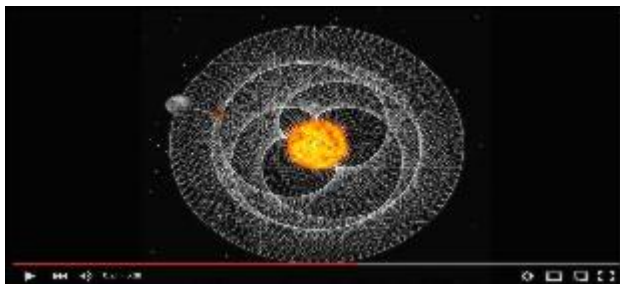

Abraham's first calling in Ur was likely 430 years before the exodus (Acts 7:2; Ex. 12:41). His first calling was likely 30 years before Isaac was weaned 400 years before the exodus (Ex 15:13; 21:5-8).

Other eras of the Bible, such as, the fall of Babel, Abraham's calling, the temple and the fall of Babylon are not new. What is new is that, evidently, they were originally associated with the 251 and 427-year cycles of the "stars", Venus and Jupiter, after Adam was placed in Eden (Gen 1:16). Venus crosses the sun once every 243 years and again eight years later, in the 251st year. Here is a video of the dance the earth and Venus perform during this last eight years: <https://www.youtube.com/watch?v=ZqFH-n7QTCU>. Here are other [dance patterns](#).

TABLE 9. Below are the orbits of, a kind of dance, between the Earth and Venus, which is illustrated by a YouTube video found [HERE](#).

More videos and details on the five-pointed star are found [HERE](#), but ignore some of the astrology and cosmic influences implied in the dialog.

Earth & Venus Eight-Year Dance-Pattern

Venus transits the sun (between the earth and sun) at the end of 243 years (in the top illustration) and eight years later, after 251 years (in the bottom illustration).

This same relationship is seen in Moses' birth being 2430 years after Adam and the exodus being 2510 years after Adam. Moses was age 80 at the exodus ($2430 + 80 = 2510$).

$$(81 \times 3 = 243)$$

$$(81 \times 3 + 8 = 251)$$

For a video of the last eight years (between every 243 and 251 years), go [HERE](#).

After 80 and 81 Years

During the first eight years, the 243-year cycle advances a tenth of a year. This means the cycle restarts after 81 years and after 162 years (81×2) and after 243 years (81×3).

Moses was 81 when he built the tabernacle in the second year in the wilderness.

The exodus story begins with a new moon near the spring equinox, at the beginning of a new year (Ex 12:2), when Venus was above or below the sun, when Jupiter began a new 427-year cycle (as in TABLE 1 and TABLE 3), at a new sabbatical cycle of 7 years, 122 sabbaticals after the flood.

Transits of Mercury ($31 \times 7 = 217$ yrs.)

700 years of Mercury with 94 transits of the sun are catalogued by NASA and located [HERE](#), and more details on its 217-year pattern are found [HERE](#).

A new 217-year cycle began on May 09, 2016. This was seven years before an alleged jubilee alleged to occur in the fall of 2023 (after the sabbatical of 2022-23).

2016 was 1953 years (217×9) after a new cycle began in 63 AD, which was seven years before Jerusalem and the second temple were burned in 69-70 AD.

63 AD was the beginning of the first Jewish revolt against Rome, which was 70 years before the second Jewish revolt against Rome in 133 AD (called the Bar Koshiba Revolt).

63 AD was 651 years (217×3) after Jerusalem and the first temple were burned in 588-87 BC. The 217-year pattern is found [HERE](#)

TABLE 10. Mercury's 46-Year Pattern

700 years of Mercury with 94 transits of the sun are catalogued by NASA and located [HERE](#).

Acknowledgment: Information based upon *Transit Predictions* by Fred Espenak, NASA/GSFC

Mercury's 46-yr. Transits of the Sun between 1605 & 1736

Nov 01, 1605 –	Nov 03, 1651 –	Nov 03, 1697	<u>46 yrs. apart</u>
May 03, 1615 –	May 03, 1661 –	May 05, 1707	<u>46 yrs. apart</u>
Nov 04, 1618 –	Nov 04, 1664 –	Nov 05, 1743	<u>46 yrs. apart</u>
May 05, 1628 –	May 07, 1674 –	Nov 06, 1710	<u>46 yrs. apart</u>
Nov 07, 1631 –	Nov 07, 1677 –	Nov 09, 1723	<u>46 yrs. apart</u>
Nov 09, 1644 –	Nov 10, 1690 –	Nov 11, 1736	<u>46 yrs. apart</u>

The 46-year pattern repeats during each century after 1605, 1707, 1802, 1907, 2003, 2108, and 2203 AD catalogued by NASA [HERE](#).

Note on TABLE 11

Even with just a superficial glance at the 46-year pattern in TABLE 7, one is tempted to use it to create a 46-year pattern (as in TABLE 8) during the prefood era.

There are 4 perfect matches and 3 near matches:

- 00 = **Adam** appears (perfect match)
- 322 = **Kenan** is off by only 3 (325)
- 460 = **Jared** (perfect match)
- 414 yrs. 490 = **Methuselah** is off by only 3 (687)
- 874 = **Lamech** (perfect match)
- 1058 = **Noah** is off by only 2 (1056)
- 1656 = **Flood & Methuselah dies** (perfect match)

Jared and Lamech were born 414 years apart, that is, a fourth of 1656 years. Jared was born 46 x 10 after Adam and 46 x 26 before the flood. Lamech was born 46 x 19 after Adam and 46 x 17 before the flood. Methuselah died in 1656, the year of the flood, but was born in 687 instead of 690.

It would be very interesting to calculate the odds that seven out of 10 could closely fit into the Mercury 46-year pattern just by coincidence.

TABLE 11. 46-Year Pattern From Adam to the Flood (1656 = 46 x 36).

46-year Cycle:

	<u>00 Adam Appears</u>	
	46	
	92	
	<u>138 (130 Seth born) (46 x 3)</u>	
	184	
	<u>230 (235 Enosh born) (46 x 5)</u>	
	276	
	<u>322 (325 Kenan born) (46 x 7)</u>	
	368	
	414 (414 x 1) (46 x 9)	1/4 th way to the flood
	<u>460 (460 Jared born) (46 x 10)</u>	
	506	
	552	
	598	
414 yrs.	644	
	<u>690 (687 Methuselah born) (46 x 15)</u>	
	736	
	782	
	828 (414 x 2) (46 x 18)	1/2 way to the flood
	<u>874 (874 Lamech born) (46 x 19)</u>	
	920 (46 x 20)	
	966	
	1012	
	<u>1058 (1056 Noah born) (46 x 23)</u>	
	1104	
	1150	
	1196	
	1242 (414 x 3) (46 x 27)	3/4 way to the flood
	1288	
	1334	
	1380	
	1426	
	1472	
	1518	
	<u>1564 (1558 Shem born) (46 x 34)</u>	
	1610	
	<u>1656 Flood (414 x 4) (46 x 36)</u>	
		Methuselah dies in 1656

Conclusions

Now comes the hard part. How reliable are dates prior to Solomon's temple? Was the Mercury cycle used as a template or style sheet to organize the ten generations before the flood?

If the pattern says Methuselah was born 969 (or 972) years before the flood and died in the year of the flood, this becomes evidence that each of the ten generations lived a long time.

If the 251-year pattern is for organizing major events, why is it also applied to life spans? Noah was 502 (251 x 2) when Shem was born. Shem had Arphaxad two years after the flood and lived another 500 years (2 + 500 = 502). Abraham, Isaac and Jacob lived a total of 502 years (251 x 2) (175 + 180 + 147 = 502).

Why is almost every number in the Masoreh and Samaritan text from Adam to the temple either a division of or a multiple of almost every other number rendered in that same period? History seems to be much more at random. Abraham was born 352 years after the flood was called the second time at the age of 75, 427 years after the flood, and then he lived another 176 years until the birth of Joseph (75 + 176 = 251) (176 x 2 = 352). Abraham's birth was 502 years before the exodus, and his second calling in Haran was 427 years before the Exodus (502 - 75 = 427).

Isn't it strange that there were exactly 414 years between the births of Jared and Lamech, which is exactly 1/4th of the time between Adam and the flood? (414 x 4 = 1656).

Why do the Jews set 3761 BC as the date for Adam? Perhaps it is based upon Venus being created when Adam was created. As in TABLE 2, Venus has been in conjunction between the earth and sun 23 times 251 years since the Jews' date of creation. 3761 BC is also 76 jubilees before Herod captured Jerusalem in 37 BC, which is also 196×19 or 532×7 or 931×4 after the Jews' date of creation.

The list goes on and on...

TABLE 12. Number Patterns

$1708 = 427 \times 4$	$1307 - 52 = 251 \times 5$	$1656 = 46 \times 36$	$2989 - 228 = 2761$
$1708 = 1757 - 49$	$1307 - 1056 = 251$	$1656 = 414 \times 4$	$479 - 228 = 251$
$1708 - 1604 = 52 \times 2$	$401 - 352 = 49$	$101 - 49 = 52$	$2989 - 2562 = 427$
$1708 - 1656 = 52$			$2562 - 2135 = 427$
$2135 - 1708 = 427$	$427 - 75 = 352$	$1656 - 349 = 1307$	
$1708 - 1281 = 427$	$479 - 127 = 352$	$1656 - 401 = 1255$	$2135 - 2083 = 52$
$2060 - 2008 = 52$		$2008 - 753 = 1255$	$3761 + 2012 = 5773$
$251 - 199 = 52$	$352 - 176 = 176$	$1656 - 98 = 1558$	$3761 - 37 = 3724$
$251 - 147 = 52 \times 2$	$352 \times 3 = 1056$		
$199 - 147 = 52$	$352 - 101 = 251$	$1757 - 101 = 1656$	
$2562 - 2510 = 52$	$753 - 502 = 251$	$600 - 98 = 502$	
$401 - 349 = 52$	$753 - 352 = 401$	$600 - 349 = 251$	
$1447 - 1395 = 52$			
$1656 - 1604 = 52$	$854 - 502 = 352$	$349 - 98 = 251$	
$104 - 52 = 52$	$854 - 427 = 427$	$300 - 49 = 251$
